EXPERIENCE

Independent AI Automation & Chatbot Projects
Freelance / Self-Directed Projects
2024 – Present

- Explore AI-powered chatbots and automation tools to streamline repetitive tasks and improve workflow efficiency.
- Build and test chatbot workflows designed to handle common inquiries and automate routine interactions.
- Experiment with workflow automation platforms, AI tools, and integrations to connect applications and reduce manual processes.
- Apply prompt engineering techniques to improve AI response quality, consistency, and task execution.
- Develop practical automation concepts focused on customer support, lead management, and business process improvement.

EXL
Health Insurance Agent | Subject Matter Expert | Acting Trainer | Leave Management Agent | Back Office Agent
October 2024 - July 2026

- Resolved 60+ health insurance customer inquiries daily through real-time phone support, providing immediate solutions and accurate guidance on insurance concerns.
- Managed complex insurance cases and clarified procedures for colleagues, improving consistency in case handling and process compliance.
- Coached 20+ team members through formal training, new-hire support, and on-the-job guidance, strengthening process knowledge and operational readiness.
- Processed leave management requests and maintained case documentation, ensuring accurate records and organized case tracking.
- Completed back-office processing and record updates, maintaining accurate documentation and efficient daily operations.
- Received workplace recognition for performance and contributions to team operations.

AFNI PH
Auto & Home Insurance Agent | Subject Matter Expert | Acting Trainer | Acting Underwriter
November 2021 - June 2024

- Assisted customers with auto and home insurance inquiries by explaining policy details and service options, ensuring clear guidance on coverage and next steps.
- Reviewed complex customer concerns and clarified insurance procedures, improving consistency in case handling.
- Guided team members on customer service workflows and insurance procedures, promoting consistent service delivery.
- Assisted with underwriting-related tasks and documentation, maintaining organized records for insurance request processing.

QUALFON
Customer Support Representative | Norton Technical Assistance | LifeLock Identity Theft Assistance
September 2019 - January 2021

- Resolved 20–40 technical support cases daily involving Norton products and services, guiding customers through troubleshooting and issue resolution.
- Addressed LifeLock customer concerns related to identity theft protection, providing clear explanations of available services and appropriate next steps.
- Diagnosed technical issues and walked customers through resolution procedures, enabling structured troubleshooting and effective issue handling.

ILLY
Technical Staff / Barista Trainer
May 2018 – July 2019

- Diagnosed espresso machine issues and provided daily on-call technical assistance, addressing equipment problems and minimizing service disruptions.
- Demonstrated espresso machine features and operating procedures, ensuring clients understood proper equipment operation.
- Trained clients in machine operation and basic troubleshooting, promoting proper equipment use and maintenance.
